

## N210

The Apers

Nothingness all around  
Dark grey line up & down  
A stranger passes by  
I've know you'll my life

From the east to west  
Days and months are put to rest  
The snow the rain the sun  
Forever you'll go on

N210

Lines and turns lead the way  
Just like any other day  
The basics stay the same  
The memories remain

Time goes by seasons change  
Hopes and dreams were rearranged  
I never will forget  
The good times that we've had

N210

Watch the flowers grow the leaves  
they fall  
Watch the children growing up  
I know you'll be there for me in the end

N210 forever
