

# Go

## The Apples In Stereo

Go!

When you go into the place that you work you have no face  
Know you wanna go the moment that you get there  
And you get the evil eye from the people you despise  
Know you wanna go the moment that you get there

You're such a pretty pretty pretty little girl  
Let's blow this ugly ugly ugly little world!  
Go!

There's a party going down all your friends are goin' round  
Know you wanna go, the moment that you get there  
As the people that you know act like monkeys in a row  
Know you wanna go the moment that you get there

You're such a pretty pretty pretty little girl  
Let's blow this ugly ugly ugly little world!  
Go!

When you go into the shop lady watches like a cop  
Know you wanna go the moment that you get there  
She don't like the way you look so she treats you like a crook  
Know you wanna go the moment that you get there

You're such a pretty pretty pretty little girl  
Let's blow this ugly ugly ugly little world  
Go!
