

## Hold on to This Day

The Apples In Stereo

Looking back on our time  
As we will for the rest of our lives  
Did we not look around?  
And did we laugh about the things we found?  
And some of us will go on  
And some will leave before our glow is gone  
Some people will pine  
For the people they have left behind

The world may rearrange  
I won't forget this day  
And everything becomes strange  
I'll hold on to this day

I can't believe you're leaving  
I can't believe you're moving away

Looking back from today  
And all the people who have passed away  
And the people to come  
They'll never know about the things we've done  
From this day on  
I'll remember 'til my memory is gone  
This moment's so sweet  
I'll relive until my life's complete

(CHORUS)

I can't believe you're leaving  
I can't believe you're leaving today

Oh, baby, this is how I wanna stay

(CHORUS)

I can't believe you're leaving  
I can't believe you're leaving, no way
