

## What's The #?

### The Apples In Stereo

I've seen you before, how many more?  
What's the number? Tell me the score.  
I'll see you again, I don't know when.  
What's it matter? You know we'll be friends.

Go to town, people run around  
but the don't know nothing.  
Go to town, they look you up and down  
but the don't know nothing  
about you or me.

I see you around, up and down town.  
What's your name, now? I'll write it down.  
I'll see you next time, drop you a line.  
What's your number? Lend me a dime.

Go to town, people run around  
but the don't know nothing.  
Go to town, they look you up and down  
but the don't know nothing  
about being free.

I'm different from you (it's all right, it's all right!)  
You're different from me (it's all right, it's all right!)
