

You Said That Last Night

The Apples In Stereo

Writing on the wall
I wanna say, but I can't say it
you said it's my fault
but today's another day and...

You said that last night
do you feel like that today?
You said it's all right
do you feel like that today?

Hurts my peace of mind
when we say the things we say
it makes me feel unkind
but yesterday's another day and...

You said that last night
do you feel like that today?
You said it's all right
do you feel like that today?

What's the meaning of right or wrong?
Makes no sense when we get along.
What's the meaning of wrong or right?
We've got our worries, we get uptight...
