

## Raise the Sails

The Appleseed Cast

(tell me)  
what grounds your condition  
worst of all, they're the same  
make the cause stop again  
it grounds your condition  
wait, wait

we can wait and we can do  
what is lost we never knew  
have we heard the captain's call  
never saw what we never knew  
is it them or is it you  
i wonder who is wrong  
i see the sky on the crow's nest rising  
eyes are wide and filled with trust  
have we heard the captains call  
opposite and she's divine  
shivering cold, don't let me die  
watching you keep watching the sky
