

## Tweaker Kidz

The Aquadolls

I strut I strut I strut to the left  
I see these high school kidz trying to sniff Dreft  
I work, I move, I shake it to the right  
they're all fired up and they're looking to fight,  
so I said

Hey man, look around, take a shot, and smoke some dope  
hey man, look around and smoke some dope  
and maybe then you will be good to go.

The kids are not alright I mean LOOK AT THEM!  
they limp around thinking that they're elephants  
they'd do just about anything to get their fix  
but they'd be best in the clinic, instead of the kitchen  
cuz I said

Hey man, look around, take a shot, and smoke some dope  
hey man, look around and smoke some dope  
and maybe then you will be good to go.

Going through his daddy's medicine cabinet  
instead he grabs Viagra that he thought was Xanax  
the kid takes five and then he goes to the mall  
then he told his friends how bad he wanted to fuck them all,  
so I said

Hey man, look around, take a shot, and smoke some dope  
hey man, look around and smoke some dope  
and maybe then you will be good to go.
