Willow

The Arcadian Wild

Stay, you're in the shade
In this world we made
Don't stray up on the canopy

Safe beneath the willow tree

Whether or not there'll be warmer weather
There just enough sun to see
You're the light over me
So, take my hand and pave the way
I'll love you night and day

Be the ground underneath my feet
I'll walk with no need to worry
Consume the stream rushing round my knees
I'll bathe with you till the morning
Being the wind I hear whispering
I'll carry you when you're weary

Below the willow will I be
(Below the willow will I be)
Come live with me
Beneath the tree

Walk with me into the rain
Distract the world away
I'll fall for you, I'll follow you
Unfaltering all the way

Whether or not I'll just wear the leaves soon
You and I left here long ago
Dry under the leaves of the willow

Locked away far from the rain
We wander through our domain

Be the ground underneath my feet
I'll walk with no need to worry
Consume the stream rushing round my knees
I bathe with you till the morning
Being the wind I hear whispering
I carry you when you're weary

Below the willow will I be
(Below the willow will I be)
Come live with me
Beneath the tree

Oh oh oh...
Oh oh oh...

Be the ground underneath my feet
I'll walk with no need to worry
Consume the stream rushing round my knees
I bathe with you till the morning
Being the wind I hear whispering
I carry you when you're weary

Be the ground underneath my feet
I'll walk with no need to worry
Consume the stream rushing round my knees
I bathe with you till the morning
Being the wind I hear whispering
I carry you when you're weary

Below the willow will I be
(Below the willow will I be)
Come live with me
Beneath the tree
