

Love Light

The Archies

Well she got this

Love light
That she shines on me
Yeah, she got this love light
That she shines on me

She can make me feel anyway she want
Anytime that she turns it on
Don't you know that I depend upon
That little ole

Love light
That she shines on me
Yeah, she got this love light
That she shines on me

When I'm blue
And weary she comes around
Like an angel she don't make a sound
Never once has she let me down

When I'm blue
Tell ya what I do
I call love light
I call love light
I say: Love light, love light
Love light, love light
Shine your love light on me

Oh yeah!

That little ole

Love light
That she shines on me
Yeah, she got this love light
That she shines on me

She can make me feel anyway she want
Anytime that she turns it on
Don't you know that I depend upon
That little ole

Love light
That she shines on me
Oh yeah
She got this love light
That she shines on me

Oh yeah
She got this love light
That she shines on me ...
