

The Arc

The Arcs

Rollin' out of Richmond
With a load of dusty gold
It shines
I gotta get a little more time
To shine
I just need a little more time, uh huh

Goin' wherever I can
Put the money in my hand
So I can shine
I gotta get a little more time
To shine
I just need a little more time, uh huh

Workin' just to beat the clock
Alls I need is one more stop
If you even knew the things I do for you
You'd pray like I do

Killing time forever
Waiting for the man
So I can shine
I gotta get a little more time
To shine
I just need a little more time, uh huh

Today is gonna be the day
All my sins get washed away
If you even knew the things I do for you
You'd pray like I do

If you even knew the things I do for you
You'd pray like I do

Heard a shot committed
From the Appalachia line
In the pines
I gotta get a little more time
To shine
I just a need a little more time, uh huh
I gotta get a little more time, uh huh
I just need a little more time, uh huh
