Clone

The Armed

Every tongue in a round
Discipline
I'm so conditioned
Any word — ever proud
Tunnel visions
Oh shit, is it alright just to not know?
Or is that an admission?
As I have grown
I'm sure of oh so little

Hollow centers are waiting under...

You and I and all together!
The now! The then!
It's all just an iteration, babe!
Hot typeface lies!
Yeah, you and I — we're all together!
We're young and beautiful!
A whole generation, babe —
We're all damned liars

Sisyphus or Solomon?
Just imitation occupations...
Throw the stone
You've arrived!
In comfy chairs in crystal houses...

All white and so fragile...
And never an admission
Perfect saviors
In ugly new construction...

Hollow centers are waiting under...

You and I and all together!
The now! The then!
It's all just an iteration, babe!
Hot typeface lies!
Yeah, you and I — we're all together!
We're young and beautiful!
A whole generation, babe
We're all damned liars

This will all age so poorly
Hollow centers collapse
Tragic
