

Mujahoudini

The Armed

More of everything
We consume
We deplete
We digest
We repeat patterns
That vicious cycle
Wait Watch
Wait
Night
Day
You can't live actions you don't take

Why put the pen to paper (Hesitate)
Don't start until you're ready (Hesitate)
Philosophize forever (Hesitate)
In your head every single day
Your thoughts are precious nothing (Hesitate)
Without an execution (Hesitate)
Too bad your giant ego kept you on the ground (Hesitate)

You made your own bed
And you made a big mistake
You Scum

Now its been (Hesitate)
Too long the fire is gone (Hesitate)
Its in your head (Hesitate)
What's there to show?
Nothing
