

## No Rest Until Ruin

The Armed

Dealt an unfair hand  
Pride in it  
None left  
Unscathed

Fall down

Our friend  
Taking the bait  
Running away  
All his life  
Taking the bait  
Running away

Fall down

Not today  
Turn a simple phrase  
Sacrifice  
Sampled  
Misplaced

Fall down

Fractured  
Run Down

And with that there was no one left to blame (to blame)  
Take it back, take it back to the start  
When it all comes down there is no one left to blame (to blame)  
Take it back, take it back to the start  
You are what you are and you did this to yourself

Fall down
