

# Killer Robots From Venus

## The Arrogant Worms

About six months ago some one came by with a petition,  
Said "We wanna stop these folks, moving in next door",  
I refused to sign and told them everyone was welcome,  
Cause that's what neighborhoods are for.

So they moved in and I'll admit they looked peculiar,  
But they invited me to a friendly barbeque.  
Glad I got to know them,  
Let me tell you something,  
They may be metallic but they're just like me and you.

No, there's nothing wrong with killer robots from Venus,  
They gave me zucchini from their garden yesterday(veryveryfresh),  
No, there's nothing wrong with killer robots from Venus,  
You may disagree but I think they're A-OK.

My buddy Charlie never got off the robots' backs,  
Then one day him and his whole house disappeared,  
I talked about to my neighbors,  
The killer robots from Venus,  
They couldn't help me but agreed it was weird.

No, there's nothing wrong with killer robots from Venus,  
They always mow their lawn and they joined the PTA(because we care),  
No, there's nothing wrong with killer robots from Venus,  
You may disagree but I think they're A-OK.

They had us over for an outdoor New Year's party,  
Though it was 10 below there was food and drink aplenty,  
They got excited as we counted down with them,  
And when we kissed them our lips stuck to their heads (ouch).

I was watchin the news last night,  
And I saw something funny,  
Killer robots from somewhere,  
Decimated Montreal,  
I wondered, "Could it be my neighbors, the killer robots from Venus,  
Could it be them after all?"

Oh no, they're so nice. Ya.

No, there's nothing wrong with killer robots from Venus,  
They applauded for my kid at the Christmas play(he was the best shepherd),  
No, there's nothing wrong with killer robots from Venus,  
You may disagree but I think they're A-OK,  
You may disagree but I think they're A-OK,  
You may disagree but I think they're A-OK(we're ok).
