# Log Into You

**The Arrogant Worms**

You double clicked my heart
You upgraded my life
You booted up my hard drive
Please be my cyber-wife

You logged into my soul
You downloaded my dreams
Let's go to my chatroom
And I'll show you what I mean

I wanna log in to you
So I can prove my love is true
You're the Apple of my IBM
Let me interface with you

I wanna log in to you
Password incorrect
My login was denied
I gotta open up your motherboard

Put my Pentium inside
I got a 21 screen
The colours will make you dizzy
My attachments are full
Of love for you

But you modem still rings busy

www.love
you@me.com

You can unzip all my floppy files
And spin my CD-ROM
I wanna log in to you

So I can prove my love is true
I'm free of any virus
And I've been debugged too
I wanna log in to you

So I can prove my love is true
Be my laptop dancer
I got lotsa RAM for you
I wanna log in to you

www.love
you@me.com
