

## Come on In

The Association

Come on in  
You know you're welcome here  
Come on in  
It's been a long cold year

Now I don't know what went wrong  
But one whole year has passed us by and gone  
We're back together now where we belong  
So baby, come on in (Come on in)

Come on in (Come on in)  
You sure look good to me  
Come on in (Come on in)  
I'm as lonely as I can be

Over there in the corner is your old chair a waitin'  
Sittin' in the corner justa anticipatin'  
What a long, long time it's been  
So baby, come on in

Come on in (Come on in)  
You know you're welcome here  
Come on in (Come on in)  
It's been a long cold year

Now you know why I waited around  
Time is nothin' that could bring me down  
I knew if I waited I would win  
So baby, come on in

Come on in

[Repeat and fade]
