

## Love Affair

### The Association

What a place to begin a love affair  
In a gathering of friends, a love affair  
You in your Levi's and I in my hair  
Here we are in a love affair, love affair

One more kiss would be out of place  
We could miss and get hung up in a race  
You with your future and I with my past  
Could we last in a love affair, love affair?

We're still kids to the world of the old, don't you know? (Don't you know?)  
Dreams we're living they never will know  
We're full-grown to the world of the young  
But it is all just an illusion  
Someday they will look on

To the joy of a love affair, love affair  
All the memories we've known, gladly shared  
You with your gentleness and I with my prayer  
To the life of a love affair, love affair

We're still kids to the world of the old, don't you know? (Don't you know?)  
Dreams we're living they never will know  
We're full-grown to the world of the young  
But it is all just an illusion  
Someday they will look on

To the place that begins a love affair  
In a gathering of friends, a love affair  
They in their stockings and they in our shoes  
Couldn't lose in a love affair, love affair
