The Association

The greenback dollar, know it's lighter than a pound  
But in London, it'll buy anything around  
Anything in London, and Stockholm, too  
But if you don't watch out, you know it's gonna buy you  
'Cause it can get by you

Whoa, I fell down in Kansas, I broke my toe  
I'm another poor traveller-dun come and go  
A come and go, ladies, go away  
I heard every man say, a-yes I heard him say

Just the other day I heard him say  
Come go away; hey-hey-hey

I've got those friends in Birmingham, Laramie, as well  
And they all try to get to me just to tell  
Just to tell them any little thing they see  
Here's my number, won't you give me little ring  
But mean give me something  
To remember you by, bye-bye baby  
To remember me by, bye-bye-bye-bye-bye...

And you can see it from the beaches to the mountain there are p  
eople in pairs  
At the discothèque; they're at the county fair  
A county fair, boy, a place to be  
The good-lookin' calf looks good to me  
But, so does the knee

Your lookin' so fine to me (please, please, please baby)  
And they're lookin' so fine now, na na na... so good (please, p  
lease, please baby)  
Lookin' so, lookin' so, na na na... (please, please, please bab  
y)
