

You Hear Me Call Your Name

The Association

You'll hear me call your name
You'll hear me call your name
I'll be comin' back
And our love will be just the same

Let no one take my place
Let no one take my place
'Til my eyes, once more
Caress your tender face

There is a time (there is a place)
When our wings come to rest
And we shall have to wait (shall have to wait)
'Til our time comes at last

Until then, I'm sure
Our love will endure
The trial of man's troubled times

You'll hear me call your name
You'll hear me call your name
I'll be comin', I'm comin' back
And our love will be just the same
