

You May Think

The Association

You may think that I think that our love is through
But I think that your thinking doesn't ring quite true

It's just a maze, the game that I play
A slightly out of focus view

The answer is near, the answer is here
If you just believe that I love you
And I do

An allusion of confusion lies between us two
An expectation of affection is long overdo

It's just a maze, the game that I play
A slightly out of focus view

The answer is here, the answer is near
If you just believe that I love you
And I do

You may think that I think
That our love is through
But I think that your thinking
Doesn't ring quite true
