

Apollo

The Asteroids Galaxy Tour

Get in position, get ready to receive it
Ground is shaking under our feet
Reality is changing to rapidly and easy
Oxygen is all that we need

I let go
Yeah, I'm running up Kilimanjaro
Yeah I'm surfing on the waves in slow mo
Oh you got me shooting into the sky, the sky

Apollo, Apollo
Shook, shook me up

You're the electricity running through my feathers
Lights me up again and again
There's a certain chemistry bringing us together
Now you know we're more than just friends

I let go
Yeah, I'm running up Kilimanjaro
Yeah I'm surfing on the waves in slow mo
Oh you got me shooting into the sky, the sky

Apollo, Apollo
Shook, shook me up

'Cause I'm from out of the ordinary
Come on let's do it again, uh
Let's do it again
'Cause I'm from out of the ordinary
Come on let's do it, let's do it, let's do it
Do, do, do, do...

Out of the ordinary
Come on let's do it again, uh
Let's do it again
You're something out of the ordinary
Come on let's do it...

Apollo, Apollo
Shook, shook me up
Apollo, A-a-apollo
Shook, shook me up
Apollo, Apollo
Ooh, Apollo, Apollo
