

Get Connected

The Asteroids Galaxy Tour

Locked up in a room
Under radar... let us sync your mind
Gets me in the mood
Elevator
Up and down my spine

Everybody's playing around, everybody's getting down
Dancing without fear
Take me there tonight
Make me feel alright
You can hear 'em talk about it
Don't you wanna know about it
Whispers in your ear
Take me home
I wanna get to know it all for sure

I wanna get up there
Higher! I wanna go
I wanna get up there with you!
I think you're beautiful but I'm falling apart
Feels like an airplane
Through the membrane
Get me on a plane
Over fire... You know I come undone
Open up the gate
Get me wired... Till we become one

Everybody's playing around, everybody's getting down
Dancing without fear
Take me there tonight
Make me feel alright
You can hear 'em talk about it
Don't you wanna know about it
Whispers in your ear
Take me home
I wanna get to know it all for sure

I wanna get up there
Higher! I wanna go
I wanna get up there with you!
I think you're beautiful but I'm falling apart
Through the membrane
