

## Wave Teng

## The Asteroids Galaxy Tour

I wanna be where the wave hits the shore  
Right by the sea down in El Salvadore  
Hanging on the beach with the one I adore  
Giggy up giddy up romeo  
I wanna be where the wave hits the shore  
Right by the sea down in El Salvadore  
Rababa Boy I'm ready to go  
Giggy up giddy up romeo

Sometimes you get trapped in the weekend  
Show up for work on wednesday looking seasick  
Two days late for school without a reason  
Back to reality but flying on the feeling  
Your dog ate your work report don't believe it  
Got chicken pox or chicken flu what a reason  
Always down to grind, elbows and knees in  
But truth is me and my baby had a beach date  
Still got sand between my toes let a hater know  
Broke and balling out crazy letting paper blow  
Spirits hit my throat cut me like a razor yo  
Spirits lift me up  
Majita where the chaser though  
Now we loosie goosie goofie  
Playing touch rugby on the beach in a koofie  
Sea water bongz and banana leaf doobies  
Club tropicana just me and you juicy... joocey!

Nah, call in sick  
Threw a dart at a map like random pick  
Me and her in the car hit the highway quick  
She had a box of cassettes labeled roadtrip hits  
Volume one to five and  
Freaking off when driving  
Kells singing vibe  
For the scenery surrounding  
Chest pounding love lift us up through this endeavour  
Cloud nine we could be up here forever

Summer flings  
Pink drinks with umbrellas in  
Sunshine blazing, heatwave  
Make the devil sing  
All day all week I been on my feet  
Hustle real hard tryna stack my sheets

Working like a slave to live like a king  
Don't know where it ends and where I begin  
I need a getaway getaway  
Secret spots you can't pronounce  
Passport tatted like a biker,  
Give my accent extra bounce

Romeo looking like Che Guevara  
Infared  
Vida complicada  
JDL style that's guatamala  
Wave to the wavy a wavey-o  
Sugared paradise tropicana  
Working on my tan  
Wanna be rihanna  
Do my slang teng like a concubana  
Wave to the wavy a wavey-o
