The Asteroids Galaxy Tour

With a heart made of stone
It will tear at your soul
Turn around,
Take a step,
Say goodbye.

And you slowly From the skin to the bone
Turn around,
Take a step,
Say goodbye

When you realize your time is up
Don't get down on your knees
With a heart made of stone,
It will tear at your soul
Turn around,
Take a step,
Say goodbye.

Turn around,
Take a step,
Say goodbye.

Turn around,
Take a step,
Say goodbye.

So long blue sky,
Ride in to the night,
Dream on lullaby

Yo!
She was born a believer
Growing up One beat from her heart
Will last forever and tear him apart
Oh he's gonna cry up, we used to come
Yeah, he's gonna dry up, only one.

Oh, blown out of nowhere
She was standing there
She was trying to make him see, reach out
What she did to him she did to set him free
But he was sedated, sedated in ecstasy.

Reach out
Reach out
Reach out
