Behave Yourself

The Astronauts

The sun beats down on the wills of the oppressors
They never learn, they just keep you under thumb
They say if you want to go out late tomorrow
Don't go out tonight till your homework's done
And you behave yourself

When you behave yourself the day seems so much longer
Don't behave yourself it won't do any good
When you behave yourself you don't turn out any stronger
Don't behave yourself I know you would break out if you could

Now the people that seem to rule your lives forever will one da
y be gone,
So you had better be prepared
And you behave yourself

You may wake up one bright and sunny morning
And you will have found that it caught you unawares
You behave yourself

When you behave yourself it get so bloody boring
Don't behave yourself it will drive you round the twist
When you behave yourself you spend the whole day snoring
Don't behave yourself and you'll have better fun than this

So the sun beats down on the wills of the oppressors
But they never learn, they just keep you on the run
And you behave yourself

And all the time you sit around stagnating
You could be outside and having better fun
Still you behave yourself

When you behave yourself you're waiting for tomorrow
Don't behave yourself it'll only bring you down
When you behave yourself you spend the life in sorrow
Don't behave yourself and tonight we'll take the town.
