

# Make Believe

The Astronomers

I wanna be there for you like Mike was for Sully  
I wanna cook for you all night, some ratatouille  
And if you're lost, I'll find you like Dory  
Give you my love like I'm Wall-E  
Because who knows, if we're all just toys in a story

What if it all was a daydream  
What if it all was make-believe

I wanna drive around with you like we're in Cars  
I wanna put balloons up on our house, we can go so far  
We can pretend to be superheroes  
Fly away like Incredibles  
'Cause who knows, if we're all just toys in a story

What if it all was a daydream  
What if it all was make-believe  
What if it all was a daydream  
What if it all was make-believe

What if it all was a daydream  
What if it all was make-believe  
What if it all was a daydream  
What if it all was make-believe
