

Packed Lunch

The Astronomers

Let's not think about any responsibilities
Let's go away, run away baby just you and me
I found a house up north
Fill the A4, pack a lunch let's go
(Yeah)

To Target and go buy a couple CDs
Try to leave our phones off, listening quietly
To the full album
Hearing those drums keeps our hearts beating

We got so much left to find out about each other another so let's go
And not waste any time

I'm 5'8" gotta recover from a couple of silly bad dates
Lead on each other for her mother because she liked me
My favorite color is orange
You always win me over with mac up on my plate
You say your favorite artist is the one who talks about Tuesdays
Getting a beer cause you like talking about the workdays
Your favorite color is blue
And nothing in the world can compare with you
You
With you
And nothing in the world can compare with you

Let's not think about groceries we can
Go out for fried shrimp on weekends
But I don't really care what I'm eating
Or where we're meeting when I'm with you
Let's stay up like no tomorrow
Spend some money yeah we can borrow
All of this and more
Learn little by little about ourselves I'm sure

We got so much left to find out about each other another so let's go
And not waste any time

I'm 5'8" gotta recover from a couple of silly bad dates
Lead on each other for her mother because she likes me
My favorite color is orange
You always win me over with mac up on my plate
You say your favorite artist is the one who talks about Tuesdays
Getting a beer cause you like talking about the workdays
Your favorite color is blue
And nothing in the world can compare with you
You
With you
And nothing in the world can compare with you

Let's slow it down and go little by little
Wherever we go know that we're fine
We got so much left to find out about each other another so let's go
Slow it down and go little by little
Wherever we go know that we're fine
And not waste any time
(Wait, how tall am I again?)

I 'm 5'8" gotta recover from a couple of silly bad dates
Lead on each other for her mother because she likes me
My favorite color is orange
You always win me over with mac up on my plate
You say your favorite artist is the one who talks about Tuesdays
Getting a beer cause you like talking about the workdays
Your favorite color is blue
And nothing in the world can compare with you
You
With you
And nothing in the world can compare with you
