

I love that you came into my life  
Cause you gave your heart and I gave mine  
And I'm getting used us in time  
I've never been cared for more  
But I'm still kinda scared for more  
I can see it see a future

I'll be your only knight in shining armor  
We can see what the world has for us  
Let the earth turn beneath us

Lay on the couch and talk till three  
Talk about all of the ways that you mean to me  
We can get lost in conversion  
Look at the neighbors decorations  
Till' your eyes linger off  
And dream about us

I can see it see a future  
I'll be your only knight in shining armor  
We can see what the world has for us  
Let the earth turn beneath us

I can see it see a future

I'll be your only knight in shining armor  
We can see what the world has for us  
Let the earth turn beneath us

I'll be your only knight in shining armor  
We can see what the world has for us  
Let the earth turn beneath us
