

Make the Mistakes

The Automatic

7 second delay,
Whats in the gap between my ears and what you say
Nothing on display
No evidence of life behind the noise
[chorus]
I'm on your side, i'm on your side ohhh
But we don't see eye to eye
I'm on your side, i'm on your side ohhh
But we don't see eye to eye
Sit back and wait let someone else make the mistakes
No time to waste no time to waste
Were pushing on we've got somewhere to go
[chorus]
I'm on your side, i'm on your side ohhh
But we don't see eye to eye
I'm on your side, i'm on your side ohhh
But we don't see eye to eye
Your in the driving seat
Don't know where your going
This is getting out of control
This is getting out of control
Your in the driving seat
Don't know where your going
This is getting out of control
This is getting out of control
And i always will
Feel what i feel
And i always will
I'm on your side, i'm on your side ohhh
But we don't see eye to eye
I'm on your side, i'm on your side ohhh
Your in the driving seat
Don't know where your going
This is getting out of control
This is getting out of control
Your in the driving seat
Don't know where your going
This is getting out of control
This is getting out of control
And i always will
Feel what i feel
And i always will
Feel your way around
