

Celestial Blues

The Avener

We must get closer to the essence of life
But be aware that it takes courage and strife
Expand your mind don't let it wither and die
You'll find it lifts your spirit high to the sky
So meditate
Come on let down the play

Talk to the heavenly bodies of the universe
Of the universe
Please (?) must get closer to the (?)
Bodies, bodies

Talk to the heavenly bodies of the universe
Of the universe

We must get closer to the essence of lif
But be aware that it takes courage and strife
Expand your mind don't let it wither and die
You'll find it lifts your spirit high to the sky
So must move with the tides
(?) things got the best
So must move with the tides
(?) things got the best
So must move with the tides
(?) things got the best
