

Better Here

The Avett Brothers

What can I drink tonight
To make it easier on me
What can I think about
To get it off my mind
What can I say if I can't tell the truth
The only thing that'll make it better here
Is you
Is you

Where can I go
That I won't end up lost again
What do I tell them when they ask
Do I pretend and act confused
When the only thing that'll make it better here
Is you
Is you

Who's leading here
What are they thinking
All heart no brains
That's me
That's me
Who's left to love
When everyone is leaving
All heart no brains
That's me
That's me

How can I laugh when I don't think its funny
My happiness is not your toy
I won't sit around becoming what I lose
But the only thing that'll make it better here
Is you
Is you
Is you
Is you
Is you
