

January Wedding

The Avett Brothers

She keeps it simple
And I am thankful for her kind of lovin'
'Cause it's simple

No longer do we wonder if we're together
We're way past that
And I've already asked her
So in January we're gettin' married

She's talkin' to me with her voice
Down so low I barely hear her
But I know what she's sayin'
I understand because my heart and hers are the same
And in January we're gettin' married

And I was sick with heartache
And she was sick like Audrey Hepburn when I met her
But we would both surrender
True love is not the kind of thing you should turn down
Don't ever turn it down

I hope that I don't sound to insane when I say
There is darkness all around us
I don't feel weak but I do need sometimes for her to protect me
And reconnect me to the beauty that I'm missin'
And in January we're gettin' married

No longer does it matter what circumstances we were born in
She knows which birds are singin'
And the names of the trees where they're performin' in the morn
in
And in January we're gettin' married
Come January let's get married
