

## Pretty Girl from Locust

The Avett Brothers

Careful, not to say that I don't care  
Or haven't, or can't, or will not again  
Winter didn't die, she was murdered  
And you are the culprit, I am the same

It's only right, it's only right  
For you to fall in love with me  
Give me a life, give me a life  
Give me tonight, it's only right

Thirty days alone with the savior  
An angel, a devil, rapture and smoke  
And I'm careful, just not to say that I miss you  
Cause sometimes, I guess I still miss myself

It's only right, it's only right  
For you to fall, in love with me  
Give me a life, give me a life  
Give me tonight, it's only right
