

Every Side of You

The Babys

I know you want to see me
But I'm falling too fast
A tension just like a baby
And I want it, I want it so bad
Just when I thought I knew you
I was wrong, I was so wrong
You were more than I ever imagined
Much more inside and outside
Every side of you
I feel inside of me
Every side to you
Is what I need to see
We talk, we laugh, you're my better half
You make sense, we make sense
[?] I'm a lucky man
[?] sun-dressed so we dance
Every side of you
I feel inside of me

Every side to you
Is what I need to see
Every side of you
I feel inside of me
Every side to you
Is where I wanna be
You kiss me like the first time
And the last time last night
You're caught in the sun, the storm, in the wind
I don't know where to begin
You're everything
Every side of you
I feel inside of me
Every side to you
Is what I need to see
Every side of you
I feel inside of me
Every side to you
Is where I wanna be
