

# I'll Have Some of That

The Babys

I've traveled the world looking for answers  
Too many questions, too little time  
Can't track the clues, can't go faster  
To find the catchphrase of life's great design  
It's been said in dark places  
Or in the light with many in sight  
Sometimes meets love or other vices  
A doorway to someone's delight

Stand up, say it loud, take your swings  
Oh oh oh oh oh-oh well  
Genuine love and now it's your turn at that  
All that you have to do is repeat after me  
Oh, just say I'll have some of that!

Don't lose control of the situation  
All systems go, make yourself  
Don't go slow, pick up steam  
What ya do, you're livin' a dream

Stand up, say it loud, take your swings  
Oh oh oh oh oh-oh well  
Genuine love and now it's your turn at that  
All that you'll have to do is repeat after me  
Oh, just say I'll have some of that!

Fabricate, appreciate, celebrate, communicate  
Substantiate, participate, don't procrastinate or hate

Modulate, reverberate, illuminate, translate  
Incorporate and concentrate and demonstrate

Ooh I want some  
Ooh I want some of that  
Ooh I want some  
Ooh I'll have some of that

Ooh, I want some  
Come on, baby, I'll have some of that  
Ooh yeah, I want some  
Oh, baby, I'll have some of that  
Ooh yeah, I gotta get some  
Ooh, baby, I'll have some of that  
I want some of that!

Stand up, say it loud, take your swings  
Oh oh oh oh oh-oh well  
Genuine love and now it's your turn at that  
All that you'll have to do is repeat after me  
Just waste your breath and say I'll have some of that!

Stand up, say it loud, take your swings  
Oh oh oh oh oh-oh well  
Genuine love and now it's your turn at that  
Oh I'll have some I'll have some of that yeah  
C'mon baby gimme gimme  
I'll get some I want some of that
