

It's a Gas

The Babys

The alarm clock rings on
It's a new day, time to be gone
Check my mates, feel the need
We're goin' on again, baby

It's gonna scream, alright

Make some noise, leave the scene
Shake your tail, dream your dream
Moving left, take the right
Put your face on, cuz it's a Saturday night out

Come on, baby, come on now
Why don't ya take me away?

You make me feel like rocking the night away
I may not move like Mick does, but baby, it's a gas
(Oh baby it's a gas gas gas)
You've got me rocking my whole life away
Oh, let me tell ya baby, oh, it's a gas
And it all starts tonight with you

Alright

Been a long time since we seen
Shinin' lights above, feel so mean
Started East, moved out West
Now we're back again where we like it best

And it's right here layin' where
I'm just playin' fo' you

You make me feel like rocking the night away

I may not move like Mick does, but baby, it's a gas
(Oh baby it's a gas gas gas)
You've got me rocking my whole life away
Oh, let me tell ya baby, oh, it's a gas
And it all starts tonight with you

(Oh baby it's a gas gas gas gas)

I'm rocking my whole life away
I may not move like Mick does, but baby, it's a gas
(Oh baby it's a gas gas gas)
You've got me rocking my whole life away
Oh, let me tell ya baby, oh, it's a gas
And it all starts it starts with you

I'm rocking my life away
I feel so young again, and baby, it's a gas
(Oh baby it's a gas gas gas gas)
You've got me rocking my whole life away
Oh, let me tell ya baby, oh, it's a gas
It's a gas

Alright

Hey baby, you know I...
I think I can move like Mick, I can, oh yeah
You've got me rocking rocking my
Rocking my life away
Alright
