Read My Stars

Say you love me I know you do Go anywhere I want you to Yeah but I love ya So now I read my stars Gettin' worried I face the floor Hearin' noises outside my door Think it's friends Can't be sure So now I read my stars And now I turn the cards Is it love Oh I don't know Is it real I can't tell Why the smile Well I'm happy Do you know her that well Is it strange Well I don't know Seein' stars all around yeah It's a spell yeah I think so Seein' rainbows well Crystal gaze and visions fade Make the card the ace of spades Can't walk the streets I don't feel safe So now I read my stars Say you love you me I know you do Do anythin' I want you to Oh the things you put me through So now I read my stars But where to turn the cards

The Babys
