

# You Saved My Life

The Babys

We like to go wild, disappear into the night  
Smokin' and drinkin' and doin' whatever feel right  
Eventually wake up to finally strain up to find  
You're lucky just to be alive  
All those lonely streets  
Became a part of me  
Turnin' me to someone I can't leave  
Then you saved my life  
You came and opened up my eyes  
Oh you saved my life  
Guitars and break beats that's just the way that I'm wild  
She liked to see me but I could be so hard to find  
She might be alone I might be a loner  
But I got some' to keep you company  
All those lonely streets  
Became a part of me

Turnin' me to someone I can't leave  
Then you saved my life  
You came and opened up my eyes  
Oh you saved my life  
[?]  
Facing what they think is right  
But I make it I fake it every time  
Oh these lonely streets  
They're a part of me  
There are places I can't seem to leave  
Then you saved my life  
You saved it in the nick of time  
Oh you saved my life  
Oh you saved my life  
You came and opened up my eyes  
Turnin' me to someone I can't leave  
Then you saved my life  
You came and opened up my eyes  
Oh you saved my life
