

Mini-Muffins For Major Heroes

The Backyardigans

These muffins may be small
But these heroes are mighty
This goblin that can grab
And this fairy that's flighty
And let us not forget
This big dragon as well
The ones that we have melted his daisy nutshell

They all had a quest
And it sure was a tough one
But they got it done
So it's time for all the fun

Mini-muffins for major heroes
They went on a quest and accomplished their goals
Mini-muffins for major heroes
Small baked goods for big brave souls

Austin: This challenge sure was tough
But we knew we could do it
That's not quite true, but
At least we got through it
Okay, we were scared
Yeah, I guess we were frightened
But then we stayed calm
When the tensions were heightened

They came to the cave
And we faced out on dragons
And when they prevailed
Which is why they are braggin'

Mini-muffins for major heroes
We went on a quest and accomplished our goals
Mini-muffins for major heroes
Small baked goods for big brave souls

I've always preferred a smaller muffin
Something about it just feels so right!
It just takes two fingers to hold it
And you can't doubt it in just one bite!
I sure would like to share this muffin with you
But half a mini-muffin would be tough
Don't worry, my dear, I've got some others right here
Oh, thank goodness, we have made enough

Mini-muffins for major heroes
Muffins are great, and better than rolls
Mini-muffins for major heroes
Small baked goods for big brave souls
