

# The Customer Is Always Right

The Backyardigans

There's a problem here, what do you mean?  
We came to see something we haven't seen  
That's not our fault, we really tried  
Well not enough, we're not satisfied  
And I don't mean to be a jerk  
But let me tell you 'bout how these things work

See, I am the customer  
And the customer is always right  
She's right  
I am the customer  
And the customer is always right

We've done the best that we can do  
This awesome ride is almost through  
This awesome swamp with awesome stuff  
Well, I just think it's not enough  
And you think right my purple friend  
And I'd say this is not the end

'Cause I am the customer  
And the customer is always right  
Oh, yeah  
You are the customer  
And the customer is always right
