

We're Knights

The Backyardigans

We're knights, that's right! With smarts and strength and guts
and might!

We're never ever rude, always polite, our knightly skills are o
ut of sight!

We're knights, that's right! We're knights, that's right!

Just yesterday we rode our horses 'cross the fields

We came upon some ogres and we stopped them with our shields

Then I saw an angry troll, I thought I was a goner!

But I jumped down and trapped him, I did it for your honor!

Next we crossed the river then scaled the cliffs of doom

Then we took a little break and went to the bathroom

We crept into the forest just as it was getting dark!

We heard a little crackle and that's when we said, "Hark!"

We saw a brutest beast that's when we said halt

Then we had him for our breakfast with some butter and salt!

We're knights, that's right! With smarts and strength and guts
and might!

We're never ever rude, always polite, our knightly skills are o
ut of sight!

We're knights, that's right! We're knights, that's right!
