We're Going To Mars

The Backyardigans

Today, the crew of the Space Shuttle... prepares to head for the stars! Me a nd my fearless astronaut team are off on a mission to Mars! We've got an imp ortant assignment! A really significant goal!

Find out what's making that 'boinga' sound!

And report back to Mission Control!

We're going to Mars! We're going to Mars! A mission is what we've got!

We're gonna say 'roger' a lot!

We're going to Mars! We're going to Mars! We're going to Mars! We don't know what lies ahead...

But, we do know the planet's red!

We're going to Mars!

What will we find when we get there?

Prob'ly some dirt that is red there!

And prob'ly some risks we'll have to take!

The future of space exploration's at stake!

Quit singing and go, for goodness' sake!

It's time to get going before it's too late! We're going to Mars! We're goin g to Mars! We're going to Mars!

We're going to Mars! We're going to Mars!

Blasting into outer space!

With no idea what we'll face!

We're going to Mars!

I'm Tyrone of Mission Control... where we manage the operation!

I'm Tasha, and I do radio stuff! I handle communication!

We stay in touch with the flight crew! Follow them on the display!

They'll radio us with questions, we'll say 'roger' and 'a-okay'!

We're going to Mars! We're going to Mars!

Flying through the great unknown!

My helmet's got a built-in phone!

We're going to Mars!

It's billions of miles away! But, if you leave real soon...

The shuttle will shuttle you there today! Just hang a right at the moon...

We're going to Mars! We're going to Mars!

Out in space, the gravity's gone!

So, please keep your seatbelts on!

We're going to Mars!

We're going to Mars! We're going to Mars!

Astronaut life is out of sight!

Stay in touch, and you'll be all right!
We're going to Mars!
