

Loose Lips

The Ballroom Thieves

Shot from the hip
And I'm surrounded by tricks
And all these loose lips
Better stay away from my ship

You might have what I like
No no I can't deny that
But tell me, how do you stand straight
With all them knives in your back

Oh no no
I got nothin but time
You know know know what I mean
Oh no no
Babe, I'm gonna get mine
And don't you ever try to take it from me

Yeah!

Do I have what it takes
Do I have substance and taste
Am I just another beat
With a bass that makes your hips shake

I know that you'll be leaving
Those eyes have been decievin me
Since I made you believe that
I believe what you believe

And
Oh no no
I got nothin but time
You know know know what I mean
Oh no no
Babe, I'm gonna get mine
And don't you ever try to take it from me

What am I good for now
What am I good for now
Yeah, what am I good for now
That I have lost your
I have lost your voice
Have lost your voice

Shot from the hip
And I'm surrounded by tricks
So tell your loose lips
To stay the fuck away from my ship

Oh no no
I got nothin but time
Yeah
You know know know what I mean
Oh no no
Babe, I'm gonna get mine
And don't you ever try to take it from me

Yeah
No no no
I got nothin but time
Do you know know know what I mean
No no no
Babe, I'm gonna get mine
And don't you ever try to take it from me
No no no
No no no no
