

Just A Phase

The Band CAMINO

I keep tryin' to run away in my sleep
Let another year go by (Let another year go by)
I'm driving deep into the night, I'm blinded
Guided by a dim headlight (Guided by a dim headlight)

I'm giving it up, everything that I'm scared of
God only knows how hard I've tried
I really hope that I can get better
Wondering what's on the other side

I'm over my head telling me
That I'm not where I'm supposed to be
Every time I find a piece
The picture makes no sense to me
Everybody pushing me, I just need space
Everybody saying that I'll find my way
I don't really know if it'll be okay
But everybody's telling me it's just a phase

It's just a phase

Eyes closed, walkin' through my life with a blindfold
Wonder when the work pays off (Wonder when the work pays off)
Oh, wastin' precious time, barely getting by
So tell me it's right

That I'm giving it up, everything that I'm scared of
God only knows how hard I've tried
I really hope that I can get better
Wondering what's on the other side

I'm over my head telling me
That I'm not where I'm supposed to be
Every time I find a piece
The picture makes no sense to me
Everybody pushing me, I just need space
Everybody saying that I'll find my way
I don't really know if it'll be okay
But everybody's telling me it's just a phase

It's just a phase
It's just a phase
It's just a phase

Sick and tired of the time I'm wasting
Holed up, dying in my basement
Tryin' to manage all the expectations
Why does everybody test my patience?
Sick and tired of the time I'm wasting
Holed up, dying in my basement
Tryin' to manage all the expectations
Why does everybody test my patience?

I'm over my head telling me
That I'm not where I'm supposed to be
Every time I find a piece
The picture makes no sense to me

Everybody pushing me, I just need space
Everybody saying that I'll find my way
I don't really know if it'll be okay
But everybody's telling me it's just a phase

It's just a phase
(It's just a phase)
Everybody's telling me it's just a phase (It's just a phase)
It's just a phase (It's just a phase)
It's just a phase

It's just a phase
It's just a phase
