

# Who Says We're Through

The Band CAMINO

And I know  
There's a million ways to read your body, love  
And I know  
That I'll wake up every morning and find another one  
Oh, another one  
And you say  
That's the seventh time you've told me that today  
So no more lies  
You're gonna have to find another way

Who says we're through  
Who says we're through

And after all  
We never seem to do much anyway  
And that's the first time  
You haven't had another thing to say  
And so it goes  
Another bout of shouting now I'm sure  
But then again  
We never really do that anymore, no not anymore, anymore  
'Cause

Who says we're through  
Who says we're through

Who says we're through  
Who says we're through  
Who says we're through (who says we're through)  
Who says we're through (all I ever wanted was you)
