

# Don't Call on Me

The Band of Heathens

There's frost outside, it's on my window  
It's freezing up, it's on my shadow  
I'm a-walking fast but I ain't moving  
This kind of life gonna bring me down

So please don't call on me no, I said now mister  
So please don't call me up, hell to bring me down  
So please don't call on me no, I said now mister  
You know I'm leaving this time around

My girl next door she'll be crying  
My dog won't bark he'll be howling  
Say I'm a-walking fast but I ain't moving  
This kind of life gonna bring me down and down, oh yeah

So please don't call on me no, I said now mister  
So please don't call me up, well to bring me down  
So please don't call on me no, I said now mister  
You know I'm leaving, well this time around

Said please don't call on me no, I said now mister  
Please don't call me up, well you wanna bring me, you wanna bring me down  
Please don't call on me no, I said now mister  
You know I'm a-leaving, well this time around

You know I'm a-leaving and I won't be found  
Said you know I'm a-leaving, show me no town

So please don't call on me, no  
So please don't call on me, no  
So please don't call on me, no  
So please don't call on me, no  
Call on me, no
