

Today is Our Last Tomorrow

The Band of Heathens

I heard it on the news
A version of the truth
Was it fact packed or fiction and fable?
California's burning
The earth will soon stop turning
The horse is out of the stable

The world is crumbling down
Can't you hear the sound?
Today is our last tomorrow

Today is our last tomorrow
Toady is our last tomorrow
Today is our last tomorrow

It's time to build a wall
A thousand miles tall
Protect what we have taken
Cause if we let them in
Our way of life will end
Some people are forsaken

Yesterday was good
Wouldn't change it if I could
Today is our last tomorrow

Today is our last tomorrow
Toady is our last tomorrow
Today is our last tomorrow

I don't remember it this way
I heard my father say
I don't like where we're going
And what I think is worse
Is the eternal curse
In death we're all unknowing

Yesterday was good
Wouldn't change it if I could
Today is our last tomorrow
Beyond a shadow of a doubt
No way we're getting out
Today is our last tomorrow

Today is our last tomorrow
Toady is our last tomorrow
Today is our last tomorrow
