Run Away

The Band Perry

Before you knew me
My fears they ruled me
I couldn't see the good that the world brought to me
A complicated situation
Everything controlling me

Then I saw the truth, baby when you said
All the pretty things that were in your head, boy
You don't overthink like the way I do
Let me fade away with you

Wasn't ready then but I'm ready now
All the pretty things gonna work themselves out
I don't overthink, now I only feel
Come with me and make this real

Baby we can run away
I don't wanna hesitate
Let me be the chance you take
You could be my wild escape

Out of control, yeah
Just wanna roll, year
That's not a problem with me
Baby we can run away
Baby we can run away

You're my angel
You faced my demons
You came and made the winter change it's season
Devastation to celebration
You were there holding me

Wasn't ready then but you showed me how
All the pretty things on the way to us now
I don't overthink, yeah I only feel
Let's make this real

Baby we can run away
I don't wanna hesitate
Let me be the chance you take
You could be my wild escape

Out of control, yeah
Just wanna roll, year
That's not a problem with me
Baby we can run away
Baby we can run away

Run away
Come with me
Nothing really stopping us now
Run away
Twist of fate
Nothing really stopping us now

Fade away

Numb the pain
Lovers and we dropping it now
Run away
Come with me
Nothing really stopping us now

Baby we can run away
I don't wanna calculate
Take a dream and make it fate
Touch me now, cause I'm not afraid

I won't control ya
Go with the flow, yeah
That's not a problem with me
Baby we can run away
Baby we can run away
