

Crying Heart Blues

The Band

Crying heart blues
I'm crying because I have lost you
Blues I can't lose
I guess it's too late now to try

And I've tried to chose another to love but it's no use
Crying heart blues, now hopeless my crying heart flees

I'll always remember I love you
My teardrops won't let me forget
Each tear is a wish to be near you
They started the day that we met

A trail of tears will lead you to me if you want me
Crying heart blues, now hopeless my crying heart flees

I'll always remember I love you
My teardrops won't let me forget
Each tear is a wish to be near you
They started the day that we met

A trail of tears will lead you to me if you want me
Crying heart blues, now hopeless my crying heart flees
