

Retrospect

The Baseballs

I've been through the dirt - When my life got absurd
Just a few were believing in me
(She was the one who kept you from falling to deep)

It was my believe - That the live I achieved
Had to be some kind of bewitched
(She was the one made you smile
when your life was a bitch)

If it was the same
Still a chaos got me insane
It I felt uneasy
She would be the one to rescue me

Retrospect - Everything is alright
Oh, what a delight
She's makin' me feel so happy

Just perfect - Everytime she was right
When I need an advice
She's makin' me feel so good, oh my

Blunder each day - Shed my hope far away
Meditate to find a way out
(No matter how down you've been,
she was always so proud)

Got the concern - That whatever I learned
She would tell me to hold up my head
(That's what she gave on your way, uh, that's what she said)

If it was the same
Still a chaos got me insane
It I felt uneasy
She would be the one to rescue me

Retrospect - Everything is alright
Oh, what a delight
She's makin' me feel so happy

Just perfect - Everytime she was right
When I need an advice
She's makin' me feel so good, oh my

I love it, I love it, I love it...

Retrospect - Everything is alright
Oh, what a delight
She's makin' me feel so happy

Just perfect - Everytime she was right
When I need an advice
She's makin' me feel so happy

Retrospect - Everything is alright
Oh, what a delight
She's makin' me feel so happy

Just perfect - Everytime she was right
When I need an advice
She's makin' me feel so good
